News Briefs

Steven A. Schroeder received a three-year grant for $200,000 from the Henry J. Kaiser Family Foundation to analyze health care policies and generate primary research data to determine what policies and practices affect rising medical costs. Dr. Schroeder is associate professor of Medicine and a member of the Health Policy Program. Assisting him on this project, which began on July 1, are Jonathan A. Showstack, an HPP research associate; Edith Roberts, research associate; Elizabeth Afshari, secretary; and Bart Blumberg, a pre-doctoral intern. Some of the studies that will be undertaken are the incidence and reasons for catastrophic medical expenses, the relative valuation of physicians' services, and changes in patterns of care for specific diseases.

The American Cancer Society and the **National Science Foundation** have awarded $240,000 for a period of two years to Gail R. Martin, Assistant Professor of Anatomy and Cancer Research to support her research program, "Teratocarcinoma Stem Cells as Normal Embryonic Cells." Dr. Martin will receive $60,000 from the ACS and $62,000 from the NSF for the first year, beginning July 1; $60,000 from ACS and $58,000 from the NSF for the second year. Teratocarcinoma stem cells are very similar if not identical to the cells of the early embryo. They are, therefore, the only known substitutes for embryonic cells. Dr. Martin has been involved with this research for the past five years.

Maria Williams O'Rourke, a second-year doctoral student, is now in Washington, D.C. for 10 weeks studying federal health policy, under a National League for Nursing public policy fellowship. O'Rourke, one of 10 fellows selected from 100 applicants, is author of "The California Nursing Practice Act: A Model for Implementation." While in D.C., she is working in Senator Alan Cranston's office assisting in legislative research and committee hearings. The Robert Wood Johnson Foundation sponsors the fellowship to encourage more nursing students to become active in public policy-making.

David N. Sundwall is chief of the newly created Family Practice Section of the Ambulatory and Community Medicine Division. Dr. Sundwall will direct undergraduate studies for family medicine and coordinate the affiliate residency programs for family practice. A graduate of the University of Utah College of Medicine, Salt Lake City, Dr. Sundwall held a similar post there in the Department of Family and Community Medicine.

LPI, Department of Psychiatry Awards:
During commencement exercises on June 23 the following awards were presented to honored residents: The Henry F. Albronda Memorial Award for exceptional psychotherapeutic skill and unusual concern for the welfare of patients went to Roberta Huberman; The Alexander Simon Award went to Robert S. Hoffman for his investment and excellence in teaching; Michael A. Kirsch and Bruce Warren Scotton were presented with the Award for Creative Achievement for an outstanding contribution by a psychiatric resident.

If you are handicapped, a disabled veteran, or a veteran of Vietnam you might qualify for the affirmative action program. The Affirmative Action Office needs to know of any special methods, skills and procedures which qualify you for positions that you might not otherwise be able to do because of your handicap, and/or accommodations that can be made to enable you to perform the job properly and safely. For a survey questionnaire and further information call x4752.

Applications are now being accepted for the Ph.D. program in Human Development and Aging for Fall 1978. The program, under the Directorship of Marjorie Fiske, will accept applications from graduate students and professionals in the behavioral sciences who have a master's degree or the equivalent. Students in the health sciences and humanities will also be considered, providing they have adequate behavioral science training. The purpose of the Program is to provide professional teachers and researchers with thorough interdisciplinary training in the techniques, theories, and special problems of adult psychosocial development and aging. For further information call 566-3595.

SFGH Briefs

The SFGH/UC shuttle between the East Bay terminal and SFGH has been operating on a trial basis since July 18, and will continue as a service to East Bay and Marin commuters. The schedule includes four morning trips and four evening trips. Passes, $20 a month, or single trip tickets for $1 are available from the SFGH Dean's Office, Rm. 2A-10. For further information contact Jane Vance or Ronie Green, 565-5042.

Eleven students are enrolled in a new program at SFGH, the first of its kind, to train multi-lingual, multi-cultural instructors of Lamaze Education for Childbirth classes. The students, who hope to become Certified Lamaze instructors by the end of the year, include five Cantonese-speaking women, two Spanish-speaking, two Tagalog-speaking, and two Black women. The program is conducted by the Women's Self-Health project at SFGH, which is under medical supervision of the UCSF Department of Obstetrics and Gynecology. Although at least 20 percent of the patients registered in the Women's Clinic are non-English speaking, no multilingual Lamaze educators have been available to them.

Deadline for the next issue of **Today/Tomorrow** which will cover the **ENTIRE MONTH** of September is Tuesday, August 23, 11 a.m. Please send your copy to Allen Balderson, News Services Department, 1475 4th Ave.
